

When was the last time somebody referred to accounts payable as “a well-oiled machine”?

The MasterCard Payment Gateway™ — the advanced way to pay and increase profits.

MasterCard **Payment** **Gateway**

MasterCard Worldwide has always been at the forefront of straight-through payment processing and now we're taking payments to the next level with the MasterCard Payment Gateway.

This breakthrough evolution in payment systems connects issuers, buyers, and suppliers faster and more efficiently than ever before, to give you a total payables solution. Now instead of multiple interfaces—and inefficiencies—you get one electronic solution for all your payment options including card and electronic funds transfer (EFT).

Find profits in new places.

The MasterCard Payment Gateway isn't just a better way to pay, it's a better engine for driving profits, that:

- Improves your bottom line
- Simplifies payment processing
- Provides enhanced control and security

With the MasterCard Payment Gateway you can streamline all your payments into one workflow. So you spend less time processing payments and more time profiting from them.

The MasterCard Payment Gateway helps you profit by:

- Creating new efficiencies
- Reducing expenses associated with paper check processing
- Eliminating the cost of multiple bank interfaces
- Optimizing your working capital
- Enhancing tracking and security
- Leveraging your existing technology investments

ONE ELECTRONIC SOLUTION FOR ALL PAYMENT PROCESSING NEEDS? GLAD WE GOT THAT SETTLED.

Turning payments into profits.

Not only does the MasterCard Payment Gateway™ reduce the time and energy it takes to process payments, it also generates savings. With it you can:

- Reduce expenses and errors associated with paper check processing
- Eliminate the cost of maintaining multiple bank interfaces and connections
- Optimize your working capital by using straight-through payment processing to pay for approved invoices
- Leverage your technology investment by integrating easily with your existing accounts payable processes
- Take advantage of tools to measure the end savings

Simplify your entire payments processing system.

The MasterCard Payment Gateway can help you turn the most time-intensive process in your company into one of the most efficient:

- Automate the entire process to minimize exceptions
- Streamline administrative tasks
- Decrease the number of workflows
- Reduce multiple bank interfaces
- Keep your suppliers at your fingertips with an easy-to-access, B-to-B supplier directory

Take control and security to a new level.

To help you enhance tracking and compliance, the MasterCard Payment Gateway:

- Gives you visibility into payment information for all payment types
- Provides a comprehensive payment rules engine
- Ensures payment is always buyer approved and buyer initiated
- Leverages existing controls in your A/P process
- Enables compliance with PCI Data Security Standards
- Provides a single interface for multiple payment types

Let us show you the money.

The MasterCard Payment Gateway can open the way to increased profits. It is another example of our commitment to helping companies optimize their payment programs.

Streamline payment processing to improve productivity and increase profits.
